NEST FRONTS "Easy on, Easy off"

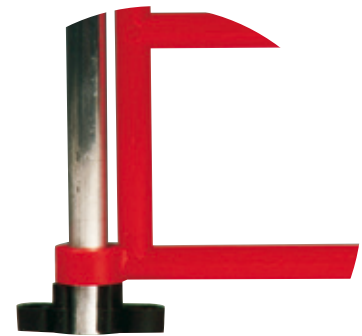

This high grade, smoothly finished "Easy on, Easy off" Nest Front is undoubtedly the most practical and simplest Nest Front available on the market. It pivots on 2 aluminium rods which click in the fittings and it can be easily removed to clean your Nest Boxes!

The fittings are made of soft plastic for a perfect fitting in all circumstances. The front is made of a durable and hard plastic which can be cleaned easily. Top quality!

These Nest Fronts can be cut to fit in all Nest Boxes (36-39 cm high / 30-40 cm deep 60-80 cm wide).

The gate can be cut either on the left or on the right side. Comes complete with aluminium rods, fittings, screws and instructions.

Superior quality for everyone!

Contents | Inhoud | Inhalt | Contenu

- 2 x Nest Box Front (1)
- 1 x Nest Box Front sliding door (2)
- 7 x Clips (3)
- 14 x Screws (4)
- 2 x Aluminium Rods (5)

600-800 mm

300-400 mm

20 mm

80-140 mm

Assembling instructions

- If necessary, cut the nest box fronts and saw the aluminium rods to measure.
- Sliding pin: make a gap in one of the nest box fronts (1) and place the sliding door (2) in the gap.
- Make holes with a diameter of 9 mm as shown above (3).
- Fix the clips (3) as shown above using the supplied screws (4).
- Mount the aluminium rods (5) and the nest box fronts as shown.

Montagehandleiding

- Indien nodig, zaag de nestafsluitingen en zaag de aluminium staven op maat.
- Maak een uitsparing in een van de nestafsluitingen (1) en plaats het schuifraam (2) in de uitsparing.
- Boor gaten met een diameter van 9 mm op de aangegeven plaatsen (3).
- Bevestig de houders (3) met behulp van de bijgeleverde schroeven (4) op de aangegeven plaatsen.
- Monteer de aluminium staven (5) en de nestafsluitingen zoals aangegeven.

Montagehinweis

- Wenn nötig, schneiden Sie die Zellengitter und die Alu-Stäbe.
- Schneiden Sie ein Loch in eines der Zellengitter (1) und setzen Sie den beweglichen Schieber (2) ein.
- Bohren Sie Löcher des Gitter unten.
- Sie in den Bohrer ein Loch von 9 mm (3).
- Die kleinen Halterverriegelungen (3) befestigen Sie mit beiliegenden Schrauben (4).
- Die beiden Alu-Stäbe (5) befestigen Sie ebenfalls oben und unten mit den Halterverriegelungen.

Instructions pour le montage

- Si nécessaire, couper les devantails et scier les liges d'aluminium sur mesure.
- Faire un trou dans un des deux cloisons (1) à l'aide d'une perce à pression et placer la petite herse (2) dans le trou.
- Faire des trous d'un diamètre de 9 mm comme indiqué dans le dessin (3).
- Fixer les supports (3) à l'aide des vis fournies (4) comme indiqué dans le dessin.
- Monter les liges d'aluminium (5) et les cloisons de nid comme indiqué.

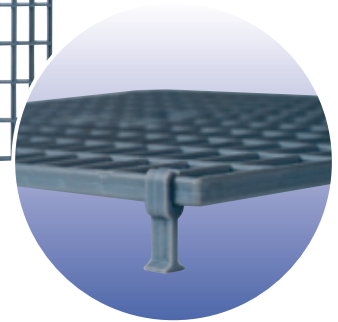

NEST BOX GRILL

Plastic Nest Box Grill, 38x38 cm, can be cut to the desired size. Eight adjustable snap-on legs give support where needed and make sure that the grill stays at a height of 20 mm. The air can circulate freely underneath the nest and all dirt falls through the grill. Easy to clean with water. A fast and hygienic solution!

E-Z ELASTICrings

A new concept of elastic rings which can easily be put over the leg of a bird, using the specifically manufactured E-Z Ringing Gun. Thanks to the use of highly elastic material, the rings are very user friendly and provide a high level of comfort for the bird.

shop & learn

Benefits:

- It is possible to ring newborn birds when they are just a few days old.
- The high rate of elasticity allows the ring to adjust to the leg of a bird as the bird grows. Hence, the necessity to ring a bird several times, to prevent the ring from growing into the leg itself, is significantly reduced (*not eliminated*).
- The limited height of the rings makes it possible to combine several colours of rings, one above the other, greatly expanding the options for marking.
- The range comprising 12 ring diameters and 7 available sizes for the E-Z Ringing Gun makes it possible to ring all bird species.
- The rings are available as a series of bright colours.

This new concept clearly provides professional bird breeders with nothing but benefits!

E-Z Seal Tag

New concept of sealed rings.

This ring is designed to create a sealed mark that can only be removed by cutting it. The flat tag design allows us to create very specific and large laser marks, even a micro QR can be laser marked on the ring.

This ring guarantees a lifetime marking of the bird!

Ideal for birds that need to be recognized for a specific reason (special treatment, specific vaccination, loss of official ring,...).

Available in 6 sizes: Ø14-16-18-20-22-24 mm

E-Z RING TOOL for electronic ets rings (OR OTHER CLIPRINGS)

Placing an electronic ring around your pigeon's leg has always been a difficult job to do alone. From now on you no longer have to be with two! This handy auxiliary tool allows you to hold your pigeon with both hands while the ETS ring is open on the auxiliary tool to be placed around the leg.

Tip: This tool can also be used for all other types of click rings
